WE KNOW MORE ABOUT OUR CUSTOMERS' NEEDS

LEADING THE INDUSTRY FOR

MORE THAN 20 YEARS

MORE THAN 100 LEADING TECHNOLOGIES

ROOTED IN THE INDUSTRY FOR MORE THAN 20 YEARS,

1000000+

USERS EXCEED ONE MILLION

SERVING MORE THAN 1 MILLION FAMILIES

FOR MORE THAN 20 YEARS, WE HAVE BEEN SPECIALIZED IN DEVELOPING HEAT PUMP TECHNOLOGY TO PROVIDE MORE SUITABLE SOLUTIONS TO USERS' NEEDS

Established in 1999, Guangdong Tongyi Heat Pump Science and Technology Corp. is one of the first and most professional heat pump manufacturers in China. Tongyi is committed to being a reliable partner, establishing the highest quality standards to ensure product and safety. Tongyi products are always at the forefront of energy efficiency.

For over 20 years of development, Tongyi has gained a high reputation in quality and reliability. Tongyi has one of the most stringent control mechanisms in place for its manufacturing processes and product quality. It has successfully obtained most of the world well known certificates, including CE, EMC, RoHS, LVD, EMD, RED, ERP, IEC, ETL, SASO, CCC, ETC for its products and ISO9001, ISO14001, ISO45001 approvals for the production management.

We value your feedback. We continuously strive to meet the highest standards to satisfy our client's demands. Through rigorous monitoring and relentless after-sales service, customer feedback is collected and swiftly incorporated into our products. Tongyi is always looking to simplify processes putting customers in the center to improve our units and after-sales service.

Guangdong Tongyi Heat Pump Science and Technoloy Co., Ltd

01

Brief Introduction

Company History

1999

Established and launched products in this year.

2000

Successfully developed high efficiency heat pump air conditioner.

2001 ISO 9001 certified for the first time.

2002

Products are CE CB certified and exported to Europe.

2003

Honored the title of Trusted Quality Products Enterprise.

2004

Promote air source heat pump water heater in domestic market.

2005

Denominated the name of "Air Source Heat Pump Water Heater" in Chinese "Kong Qi Neng" Water Heater in China, and recognized by the industry.

2006

Start to provide heat pump training course twice per year for the industry.

2007

Joined in the National Standard of Heat Pump Water Heater Drafting Committee

2008

Recognized as high-tech enterprises by the government.

2009

Inverter Heat Pump for Radiant heating and cooling supplied in Japan market.

2010

03

Obtained deflector-type heat dissipation device patent and triple-function heat pump patent.

2011

Successfully developed wrap-around aluminum microchannel heat exchanger and introduced the technology to production.

2012

Qualified for the rebate program of Energy-saving Products launched by the government.

2013

Launched clean production plan.

2014

Awarded Excellent quality brand enterprise.

2015

New series of DC inverter heat pump made great success in both domestic and overseas market.

2016

Participated in Beijing coal-to-electricity project, replace coal boiler with TONGYI heat pump for surburb house heating.

2017

Established Tongyi Air Source Heat Pump Research Institute.

2018

Launched new DC EVI heat pump for domestic house heating and cooling in MCE Milan.

2019

Served the hot water project of Daxing international airport (Asian top airport)

2020

Launched new DC EVI heat pump for commercial heating and cooling.

2021

Moved to new headquarters in Guangzhou.

Working Theory

ENERGY EFFICIENT APPLICATION

TONGYI Heat Pump offers the best solution for home heating and hot water supply with TY's inverter technology. It is 4 times more energy efficient than boiler system by absorbing energy from the outdoor environment.

VARIOUS APPLICATION

ASHP VS other heating methods

Heating Methods		Tongyi ASHP		Oil/Gas hot water boiler		Electrical water heater		
Type of energy consumption		Electricity		Oil/Gas		Electricity		
Safety Risk		Low		High		Middle		
Environmental impact		Non-pollution		Heavily polluted			Non-pollution	
Estimated product lifetime		10-12 Years		5-8 Years		5-8 years		
Installation site		NO linits		Special room		Special room		
floor space		Small		Large		Middle		
Safety performance		Safe and reliable		Flammable, explosive goods		Heating pipe aging, leakage		
Noise Level		Low		High		Low		
Failure Detection Way		Automatic		2-3 technician		1 electrician		
Labor costs		Without specific person		2-3 people labor		1 people labor		
Other cost		No		Annual examine and approve cost		Annual exmine cost		
Under same condition, Daily hot water demand 1000L, Heating water from 15°C to 55°C, comparison for running cost					n for running cost			
The specific hea				neat of water (Kcal/Kg.°C)			1	
heat value(Kcal)=specific heat of water (kcal/(kg.°C))×daily w				r requirement(kg) xwater temp difference(°C)			40000	
Heating Methods	Tongyi heat pump		Electrical water heater		liquid gas water heater		Oil water heater	
Fuel	E	lectricity	Electricity		Liquid gas		Gas	
Combustion value	860		860		8667		8700	
Unit		Kcal/h		Kcal/h	Kcal/(m3.h)		Kcal/(Kg.h)	
Efficiency(%)	380		95		80		75	
Demand for energy	12.2		49		5.8		5.2	
Unit	Degree		Degree		m³		Kg	
Fuel price (\$)	0.15		0.15		1.09		1.20	
Amount fuel cost (\$)	1.82		7.32		6.28		6.25	
Running cost (\$/Year)	666.8		2667.2		2294.3		2284.9	

Notes: The price on the form as per market price at the time, the energy consumption of other types of heat source as per national standard of energy efficiency, specific data might be a gap. Please refer to the local condition.

Professional R&D Team

Master of Core Technology

TONGYI is one of the first and most professional heat pump manufacturers in China. We are in cooperation with 3 top universities in China on various HVAC research topics.

Parts & Components Inspection

We monitor our entire supply chain for all the main parts and accessories strictly. 100% of the parts and components undergo rigorous incoming inspection at our factory.

Professional Design Procedure

From the beginning of product development, a wide range of details are taken into account: easy installation, user friendliness, cutting-edge design, high functionality, full-scale tests, and the use of more than 56 different technologies. Always aiming to provide our customers with highest standard products.

Process Control

In our production line we strictly control all processes. From the first step until the units are packed and ready to ship. Through relentless monitoring, we record all processes and developments to ensure the products are reliable and in conformity with product-specifications.

Professional R&D Team

Cooperating with several top universities in China, Tongyi attracts young talents every year and has established a government-recognized R&D Center with a team of highly-qualified engineers.

Finished-Product Inspection

We implement 100% inspection on the finished products before shipping. We implement an additional double sample inspection for all units shipped to the overseas market.

Quality Control

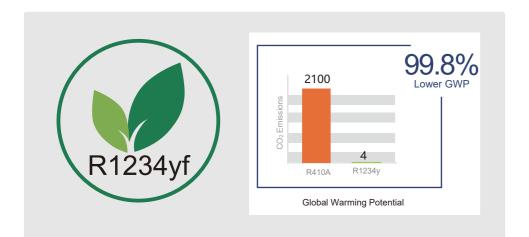

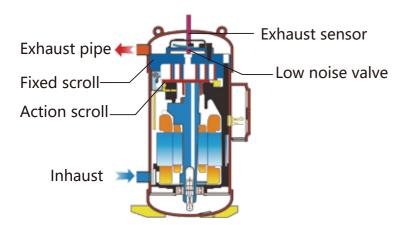

Product Features

New refrigerant R1234yf, with very low GWP

Scroll compressor

World famous scroll compressor with low energy consumption and high energy efficiency output, which effectively shortens the heating water time and double extend the useful life of the unit. TONGYI heat pump can increase over 20% heating capacity even though works under severe weather.

High temperature heat exchanger

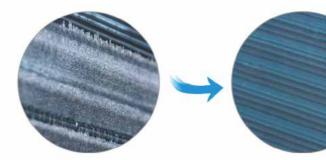

Internal thread tube in tube heat exchanger, dual cycle and multipath wavy Coaxial and spiral design; special designed for high temperature usage.

EEV, precise flow control

Wide working temperature range, faster and more accurate refrigerant flow control than capillary and mechanical expansion valve. Best choice to achieve higher efficiency and energy-saving.

Auto-defrosting program and anit-freeze

Intelligent defrosting technology, which can determine the time of defrosting according to the operating conditions of the unit (running time, exhaust temperature), ambient temperature and thickness of frost, so as to achieve intelligent defrosting when it is necessary, which greatly shortens the defrosting time by more than 20% and ensures the high heating capacity.

Product Features

Product Features

Intelligent Controller Display

- Human intelligent control
- Long distant control
- Multiple timing functions
- Internet control support
- Automatic power-off memory function
- Automatic diagnose, error code for trouble
- Available to inquiry any parameter
- Convenient maintenance

High-performance FM

It use outer rotor axial flow silent fan with five-leaf balanced aluminum alloy wind wheel. It has the advantages of corrosion resistance, large air volume and low noise.

Remote control

BMS contact point / modbus support(with RS485) to Amazon cloud, realize remote control function optional.

Multi-protections

The system runs safely, steadily and reliably thanks to our full protection: high temperature protection, compressor overload & overheat protection, power phase sequence & over/under voltage protection,etc.

To help achieve the carbon neutrality with the heat pump technology

From 1999 up to now, the contribution of Tongyi HeatPump to the energy conservation and CO2 emissionreduction, is equal to growing**100 million** trees for thesociety!

750,000tons

Saved coal consumption nore than 750,000tons

3.2 million kilograms

Reduced nitrideemissions more than 3.2 million kilograms!

3 billion kilograms

Reduced carbon dioxide emissions more than 3 billion kilograms!

12.5 million kilograms

Reduced sulfur dioxide emissions more than 12.5 million kilograms!
